THE FALL ESSENTIAL

TEN BOOTS TO BUY NOW

No matter where you winter—the best armor for the season is not an all-weather jacket, but the fully functional and supremely stylish boot. With the ability to dramatically dress things up with just a detail (fur trim, python skin), toughen a look with studs and buckles, or work as a comfortable but chic alternative to an evening stiletto, the boot fills many shoes. To that end, HSN.COM brings you the ultimate boot guide. From the eternally classic equestrian to flirty lace-ups, here are our picks.

CAT'S RECIPES

Melon Soup with Crispy Prosciutto

This chilled melon soup is impressive enough to be the first course for a formal dinner party yet so easy it can be a light, refreshing workday supper on a hot day. I either make the soup the night before or I whip it up as soon as I get home from work; then I can relax with a glass of wine and watch my boys run through the sprinkler while the soup chills. You can kick back as long as you like because this soup is happy to hang out in your fridge, chilling, until you're ready to eat.
